

Dr. Robert J. McCabe.

It is with great sadness that we hear of the passing of Doctor Robert McCabe revered in Kenya for his work with the Lokitaung Mobile Unit that undertook the Tropical Medicine program in Turkana North.

The MEAK team visited Dr. McCabe at his home in Kaleng in 2011 (Martin Nighy's August 2011 report refers) where he told us of his work among the Kenyan people in the field of general medicine and tropical diseases in particular. He was well known for visiting his local patients on his bicycle and much loved for his skill and care.

He will be much missed, but his pioneering work will continue to aid many afflicted people in Africa today and in the future.

God rest his soul.

MEAK.
